Education

San Jose State University

Master of Science in Meteorology
Cumulative GPA: 3.61

August 2022

University of California Santa Cruz

Earth Sciences BS and Environmental Studies BA
Cumulative GPA: 3.37

June 2019

Research Interests

- Aerosol-Cloud Interactions (ACI) and Aerosol-Radiation Interactions (ARI).
- The influence of air pollution, specifically aerosols, on the climate.
- The mechanisms of pyro-cloud formation and their impacts on the climate.
- The effects of climate change on extreme weather and wildfires.

Research Experience

Graduate Student Researcher

Sept. 2020 - Present

Advisor: Dr. Minghui Diao, San Jose State University, San Jose, CA

- Researching the relationship between clouds (cirrus and mixed-phased) and aerosols.
- Quality controlling, with hourly-time series and images from 2DC probe, an in-situ dataset composed of 7 NSF flight campaigns.
- Coding with MATLAB to analyze the dataset with plots such as PDFs, particle size distributions and geometric means, among others.
- Creating script with MATLAB to differentiate between different cirrus cloud evolution phases and mixed-phase cloud transition phases.
- Maintaining an Excel sheet that keeps track of any filtering or changes applied to dataset.
- Using CESM CAM6 simulated data to compare with observational data and learning to generate model data with CESM CAM6.

Berkeley Lab Undergraduate Research Intern

June 2020 - Aug. 2020

Advisor: Dr. Christina M. Patricola, Lawrence Berkeley National Lab, Berkeley, CA

- Project aim was to inform the City of San Francisco how storms will change in the future due to climate change.
- 5 past storms were chosen previously to model under their historical climate conditions and under RCP8.5 end-century climate conditions.
- Used Python and NetCDF to organize, map and analyze the data on the National Energy and Research Scientific Computing's supercomputer, Cori.
- Wrote a final paper on the project and presented a poster virtually at the Berkeley Lab summer intern symposium.

Undergraduate Student Researcher

Oct. 2018 - June 2019

Advisor: Dr. Nicole Feldl, UCSC Climate Dynamics Lab, Santa Cruz, CA

- Developed a senior thesis project that explored the effects of stratospheric sulfate geoengineering on Earth's net shortwave radiation.
- Obtained data from NCAR's Stratospheric Aerosol Geoengineering Large Ensemble Project and organized it on a remote Linux server, which was connected to with PuTTY.
- Used Python to analyze the data with the Approximate Partial Radiative Perturbation method and mapped the results with the Cartopy package.
- Received a \$2000 scholarship from the Koret Foundation for this research and was named a Koret Scholar.
- Wrote a final and comprehensive thesis on the project.
- Presented a poster at AGU 2019 and at the Koret Research Slam.

Undergraduate Summer Research Intern

June 2018 - Sept. 2018

Advisor: Dr. Geeta Persad, Carnegie Science Department of Global Ecology, Stanford, CA

- Developed an independent research project on how aerosol emissions, from 8 previously identified countries, affect the precipitation rate in Indonesia.
- Read and synthesized academic papers related to research question to inform project.
- Used Python and NetCDF Operators to organize, analyze, and map data previously produced by advisor with NCAR's Community Atmosphere Model 5.
- Gave an oral presentation on the project results to the department.
- Presented a poster at the 2019 American Meteorological Society's student conference.

Peer-reviewed Publications

- Patricola C. M., Michael F. Wehner, Emily Bercos-Hickey, **Flor Vanessa Maciel**, Kris May, Michael Mak, Olivia Yip, Anna Roche, and Susan Leal. (2021). "Future Changes in Extreme Precipitation over the San Francisco Bay Area: Dependence on Atmospheric River and Extratropical Cyclone Events." *Weather and Climate Extremes*, in revision.

Presentations

- Maciel, F. V., Minghui Diao, Ryan Patnaude, Ching An Yang, Xiaohong Liu & Xi Zhao (2022, January). "The Influence of Aerosols on Ice and Mixed-Phase Clouds based on In-situ Observations and CAM6 Simulations." Oral, *American Meteorological Society Annual Meeting*, Virtual.
- Maciel, F. V., Minghui Diao & Ryan Patnaude. (2021, December). "Influence of Atmospheric Aerosols on Cirrus Clouds based on In-Situ Observations." Poster, *American Geophysical Union Fall Meeting*, Virtual.
- Maciel, F. V. & Minghui Diao. (2020, December). "The Influence of Anthropogenic Aerosols on Cirrus Clouds Determined from In-Situ Observations." Poster, *American Geophysical Union Fall Meeting*, Virtual.
- Maciel, F. V. & Christina M. Patricola. (2020, October). "Anthropogenic Influences on Extreme Precipitation Events over the San Francisco Bay Area in a High-Resolution Regional Climate Model." Poster, *The Society for Advancement of Chicanos/Hispanics and Native Americans in Science Annual Conference*, Virtual.

- Maciel, F. V. & Christina M. Patricola. (2020, August). "Anthropogenic Influences on Extreme Precipitation Events over the San Francisco Bay Area in a High-Resolution Regional Climate Model." Poster, *LBNL Intern Research Symposium*, Virtual.
- Maciel, F. V. & Nicole Feldl. (2019, December). "The Shortwave Cloud and Surface Albedo Response to Stratospheric Sulfate Aerosol Geoengineering." Poster, *American Geophysical Union Fall Meeting*, San Francisco, CA.
- Maciel, F. V. & Nicole Feldl. (2019, June). "The Influence of Stratospheric Sulfate Aerosol Geoengineering on Earth's Net Shortwave Radiation." Poster, *Koret Research Slam*, Santa Cruz, CA.
- Maciel, F. V. & Geeta Persad. (2019, January). "The Dependence of Indonesia's Precipitation Response to Anthropogenic Aerosols on Emission Location." Poster, *American Meteorological Society Annual Student Conference*, Phoenix, AZ

Relevant Coursework

- | | | |
|--|--|--|
| • METR 240 - Numerical Modeling | • METR 215 - Advanced Physical Meteorology | • METR 205 - Advanced Atmospheric & Climate Dynamics |
| • METR 209 - Advanced Fire Weather | • METR 164 - Intro to Fire Weather | • METR 150 - Atmospheric Data Visualization |
| • EART 125 - Statistics & Data Analysis in the Geosciences | • EART 124 - Modeling Earth's Climate | • EART 119 - Introduction to Scientific Computing |

Honors & Scholarships

- Walker Scholarship, *SJSU Department of Meteorology and Climate Science*, Fall 2020, Fall 2021
- Crown College Research Project Fund, *UCSC Crown College*, Spring 2019
- Koret Undergraduate Research Scholarship, *UCSC Honors and Research*, Winter 2019
- HSF Scholar, *Hispanic Scholar Federation*, Winter 2019
- Dean's Honors, *Spring 2016, Fall 2017, Winter 2018, Spring 2018, Spring 2019*
- Latinos in Technology Scholarship, *Silicon Valley Community Foundation*, Winter 2017

Professional Memberships & Societies

- American Meteorological Society, 2018 - present
- American Geophysical Union, 2019 - present
- SACNAS, 2019 - present
- GeoLatinas, 2019 - present

Work Experience

Math Learning Skills Advisor

Sept. 2019 - Aug. 2020

UCSC Academic Excellence Program, Santa Cruz, CA

- Prepared curriculum and led ACE problem-solving sessions for lower-division calculus courses.
- Fostered a safe space for students to learn and facilitated collaborative learning between students.
- Served as a mentor to students that needed guidance in navigating the university resources.

Library Aerial Photo GIS Project Assistant

Oct. 2018 - Sept. 2019

UCSC Mchenry Library, Santa Cruz, CA

- Used ArcGIS to georectify the library's aerial photo indexes collection.
- Updated the indexes to be modern and easy to read.
- Assisted on instruction manual on the georectification process for future employees.

Learning Support Services Tutor

Oct. 2017 - Aug. 2019

UCSC Learning Support Services, Santa Cruz, CA

- Facilitated a collaborative learning environment during weekly sessions where students could interact with their peers and learn the course material together.
- Served as a peer mentor and role model for college success at UCSC.
- Past positions include Climate Statistics, Biostatistics, Introductory Chemistry I, and Introductory Physics II.

Crown & Merrill Student Sustainability Advisor

Sept. 2017 - June 2018

UCSC Sustainability Office, Santa Cruz, CA

- Created and implemented sustainability themed programs for housing residents of Crown and Merrill.
- Created flyers with Canva and share them across the residential housing area.
- Researched energy star appliances in campus housing to implement explicit policy on their procurement.
- Participated in weekly group meetings and food recovery pick-up and deliveries.

Climate Change Internship

Sept. 2016 - Dec. 2016

Monterey Bay National Marine Sanctuary Exploration Center, Santa Cruz, CA

- Researched current knowledge on climate change.
- Wrote a document to explain it in simple terms for docents to easily understand and reference.
